Everyone knows you have to have Microsoft Office to be competitive in business these days.

Here is how to get a Free 100% compatible office package that is just as good as Microsoft Office.

It's called OpenOffice.org

It is a free software package you can download that has a Word Processor, Spreadsheet, Presentation, and html editor.

All of these programs create 100% Microsoft Office documents.

Why is it free?

This software is called "Open Source" meaning it is not owned by any one company. It is developed by volunteers around the world and therefore free.

To download it visit <http://www.openoffice.org>
